2010 Photography Session Pricing

Sessions take place at your home or at a local park. My images are candid and attempt to capture the natural spirit of your dog—they are not formal portraits taken in a studio setting.

Photo sessions typically last 1 to 2 hours. I do my best to capture a wide variety of different images of your dog. Photos are usually available for preview just a few days after our session.

Enlargements are printed by a professional photo finishing laboratory. Various sizes and paper finishes are available. Other products such as calendars and photo books are also available—please inquire about availability and cost.
